Grays Harbor County, Wash. – 11 grain cars derail
just days after two derailments near Aberdeen.

BILL TO WATCH

SB 6582

Sponsored by:

Sens. Michael Baumgartner,
Doug Ericksen and John Braun.

What it would do:

- Directs UTC/Ecology to complete a safety study and regional symposium.
- Directs Ecology to lead a geographic response plan.
- Requires oil handling facilities to report volume and type of crude oil received monthly to Ecology.
- Requires Ecology to hold information in confidence or aggregate if disclosed.
- Adds rail to oil spill tax.

What it would NOT do:

- Allow communities access to vital information about shipments of crude oil and petroleum products through their cities and towns.
- Tighten safety standards on the increasing shipments of oil by barge and tanker in Washington's waterways.
